25X1

On 28 March 1952, [] the airfield which is under construction near Mahlwinkel is located in the triangle formed by the following three roads: Cobbel-Bertingen, Mahlwinkel-Cobbel and Mahlwinkel-Bertingen. The northern border of the field forms a straight line from kilometer marker 1.1 of Mahlwinkel-Bertingen road toward the center of Cobbel. The western boundary extends 550 meters east of kilometer marker 1.1 and to the south as far as about the intersection of the field paths from Uetz to Mahlwinkel and from Cobbel to Zibberick. Two low wooden buildings used as storage sheds for tools, were observed there. The eastern boundary extends 300 meters southwest of Cobbel. The field was 520 meters wide and about 2,600 meters long. About 60 workers, mostly women, were observed at the field. They removed twigs and other wood from the installation. Two tractors with trailers hauled timber away. Three low wooden buildings were located in the northeastern corner of the field. One building was occupied by a consumers' cooperative store, and another one quartered about 50 persons. *

25X1 * [] Comment. This report contains the first data on the pin-point location of the airfield near Mahlwinkel which, according to several reports, is under construction. For location of roads and landmarks, see Map GSCS 4114, sheets 3636 and 3637. The report shows that work at the field is in an initial stage. The reported size indicates that the field may be made suitable for modern aircraft.
